for the

**95TH SHOCK & VIBRATION SYMPOSIUM
SEPTEMBER 21 - 25, 2025
NEW ORLEANS, LA**

WHY EXHIBIT?

The continuous service record and the community rapport of the Shock and Vibration Symposium speaks for itself. With 93 Symposia under the community's belt, the 94th Symposium promises to deliver what the organization has come to pride itself on; a quality technical conference. With the conference comes over 200 technical papers, tutorials, meetings, discussion groups, and other fora presented from experts in their field.

These presentations are geared toward an audience of approximately 350-500 representatives of the US Government and the commercial sector of the shock and vibration community. These attendees range in assignment from project engineers and program developers to project managers and product developers. We also have representatives from academia and have attendance from over a dozen different countries.

We have attracted the largest names in measurement, testing, and equipment in our exhibit hall. Below is a sample of the exhibitors who have joined us in the last few years.
